

**Congratulations participants!
Your registration is confirmed.**

Rules & Regulations:

1. Bring the registration leaflet along with your college I-card compulsorily. The leaflet was handed over to the participants during their registration, after confirmation.

This however does not apply to the online registrations; they are just required to bring their college I-card.

CSI members are compulsory required to bring their CSI I-card. If CSI I-card is not present with the participants, then they are required to show authentication letter signed by their respective H.O.D or the CSI SBC of their respective college.

2. The students should not access any program or folder except uCAT Client during the competition.

Failing to comply with this will lead to direct disqualification. Once the participants sit in front of the computer, they are advised to wait for observers to help them login.

3. Full co-operation with the observers during the login process is advised, since your timer will start only when the test's first question appears on your screen.
4. Do not try to use any other key combinations like alt-tab, which would not work anyway. Any problems arising out of this would not be the responsibility of the committee.

5. Participants should not carry anything in the labs except their pen/pencil, and their I-card/s. Rough work material will be provided at the time of the competition
6. After the quiz is complete, scores are to be reported to the observers in the lab. Again, we are not responsible for incorrect score reported by the participant after closing the report screen after the test. The organizer's word will be considered final incase of any disputes regarding the scores or any other disputes take place.
7. If any issue arises during the test, participants should report it to the observers and maintain patience for the issue to be resolved. The timer would not be running at such times.

Thank you for registering. We expect your co-operation

BEST OF LUCK!!!

Regards
TECHNOWAR10 TEAM
